ELVIS KOBI ACHEAMPONG
1541 35th St. S Apt. 203, Fargo, ND 58103 • kobi.elvis790@yahoo.com • 701.989.3016

EDUCATION
North Dakota State University, Fargo, ND
Bachelor of Science (B.S) in Computer Science

Bismarck State College, Bismarck, ND
Associate in Science, Associate in Art

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript, TypeScript, C#, SQL
- **Frameworks & Tools:** .NET, Django, Angular, Android Studio, Visual Studio, Git/GitHub
- **Software Development:** API Development, Web & Mobile App Development, Database Systems, System Troubleshooting
- **Testing & QA:** Test Plans, Test Cases, Integrated Testing, Debugging

RELEVANT EXPERIENCE

Software Developer – Academic & Personal Projects
Fargo, ND • Jan 2023 – Present

- Designed and built full-stack applications using **C#, .NET, Django, JavaScript, TypeScript, and SQL**, demonstrating the ability to adapt to multiple programming languages.
- Delivered projects across the full development lifecycle: **concept, design, build, testing, deployment, debugging, and support**.
- Created **test plans, test cases, and performed integration and parallel testing** to ensure system reliability and data accuracy.
- Troubleshot and debugged system issues across Java, Python, and C# applications, improving performance and refining technical interfaces.
- Collaborated with classmates on team-based software projects, participating in code reviews, Git/GitHub workflows, and feature planning sessions.
- Proposed and implemented enhancements such as optimized database structures, improved UI components, and scalable backend logic.

PROJECT HIGHLIGHTS

Budget Tracker – Full-Stack Web App (.NET/Django, SQL)

- Built a budget tracking app for managing user expenses using HTML, CSS, Django, and SQL.
- Created backend endpoints and database models; conducted parallel testing for reliability.

Online Store – Java + SQL Application

- Designed and implemented a full database system using pgAdmin4.
- Developed GUI in Java and performed system troubleshooting to ensure efficiency and error handling.

Alien Invasion Game (Python & Pygame)

- Built a 2D shooting game using Pygame.
- Implemented game logic, scaling, sprite mechanics, and optimized performance through debugging.

Portfolio Website (HTML, CSS, Bootstrap)

- Developed a responsive personal website showcasing projects and skills.
- Ensured cross-device compatibility for improved user experience.

ADDITIONAL EXPERIENCE

- Strong **customer service** skills, ensuring positive user interactions.
- Experience working in **fast-paced environments**, adapting to changing requirements.
- Strong **team mentality**, always ready to assist others

LEADERSHIP & AFFILIATIONS

- **Phi Theta Kappa Honor Society**
- **Association for Computing Machinery (ACM)**
- **Honor Society**

ACHIEVEMENTS

- **Dean's List**
- Recognized for **problem-solving skills** and ability to adapt to new **programming concepts**
